# marko vinyl table covers by carlisle

Stocked and custom-sized tablecloths have a finished edge for an upscale look. All vinyls are also available in 53"/54"-wide x 15-yard roll goods. Simply cut vinyls to the size you need and cover your table - no sewing is required. One roll will yield ten 52" x 52" tablecloths. Or, use the size chart below and have Marko custom manufacture to your specifications.

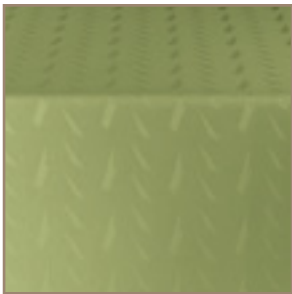

## measuring instructions

To determine the size you need, measure your tables and add 16" to the length and width to give an 8" overhang on all sides.

TABLE SIZE	RECOMMENDED CLOTH SIZE	TABLE SIZE	RECOMMENDED CLOTH SIZE
24" x 24"	40" x 40"	30" x 48"	46" x 64"
24" Round	40" Round	36" x 48"	52" x 64"
30" x 30"	46" x 46"	30" x 72"	46" x 88"
30" x 36"	46" x 52"	36" x 72"	52" x 88"
30" x 96"	46" x 112"	36" x 96"	52" x 112"
30" Round	46" Round	36" x 84"	52" x 100"
36" Round	52" Round	30" x 84"	46" x 100"

trade tip

Table coverings can be a quick way to change the look of a dining room or upgrade your table service. Marko by carlisle offers professional grade vinyls in over 200 patterns and colors. Ask your Gordon Food Service Customer Development Specialist for a marko catalog with the complete listing of patterns and color availabilities. Receive up to a 10% rebate. Ask for details.

The background of the entire page is a solid blue color. Overlaid on this background are white line art illustrations of a knife and a spoon. The knife is positioned diagonally from the top left towards the center, with its handle extending towards the top left and its blade pointing towards the center. The spoon is positioned diagonally from the bottom left towards the center, with its handle extending towards the bottom left and its bowl pointing towards the center. The two handles cross each other in the middle of the page.

soup spoons

steak knives

spreaders

A horizontal decorative bar spanning the width of the page. It consists of a top row of small, multi-colored squares (orange, teal, green, and white) and a bottom row of small white dots on a brown background.

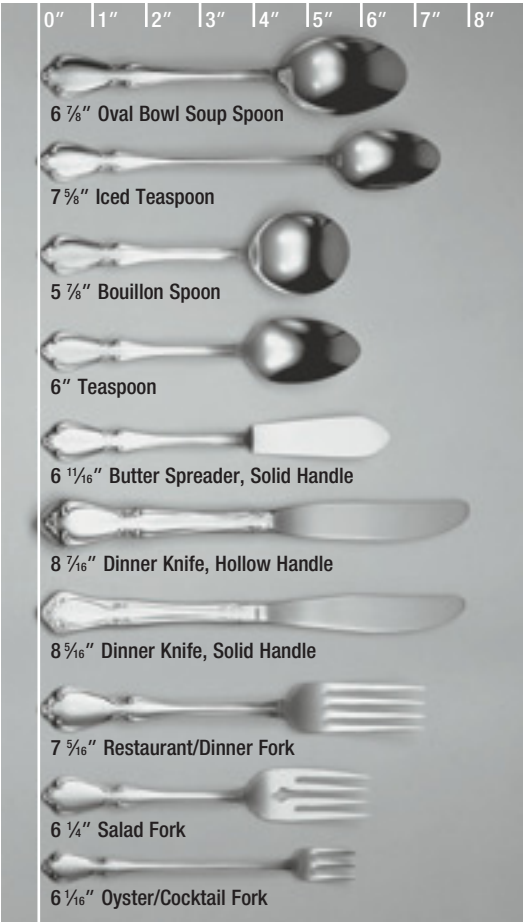

## FLATWARE

salad forks

bouillon spoons

oyster forks and more

# flatware guide

Identifying flatware and its proper uses is very important - to you and your customers. The most common flatware items are pictured at left.

Quality stainless steel flatware offers excellent resistance to wear from food and chemicals. (In other words, stainless stains less.) It is a smart investment because it provides a longer life of beautiful service.

Following are order guidelines for an opening flatware order, based on a 100-seat dining room.

Teaspoon	33 dozen
Oval Bowl Soup Spoon	18 dozen
Tablespoon	8 dozen
Dinner Fork	24 dozen
Salad Fork	12 dozen
Oyster Fork	12 dozen
Dinner Knife	18 dozen
Butter Spreader	8 dozen
Steak Knife	12 dozen

trade tip

When wiping silverware, use an old linen tablecloth that is cut up into smaller pieces. It provides the perfect texture for polishing.

## array dish racks

Cleanliness is a priority for every foodservice operation. Array's® lineup of quality dish racks is designed to help you maintain the highest safety standards when it comes to keeping dinnerware clean and safe. We have a comprehensive solution to meet your needs.

### Features & Benefits:

- Made from durable, long-lasting polypropylene that can withstand chemicals and high temperatures.
- Fits any commercial dishwasher.
- Excellent stability, allowing stacking and interlocking for space-saving convenience and efficiency.
- Open inside compartments that ensure thorough cleaning, and closed external walls to keep contaminants out.

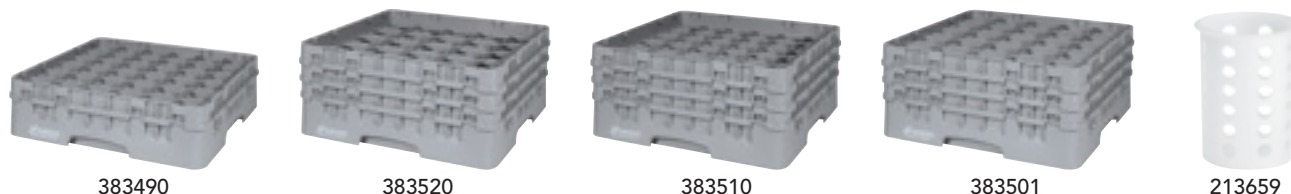

Because you understand that an appealing meal starts with sparkling dinnerware, you can count on Array dish racks to make it easier for all of our serving pieces to shine.

## flatware & dish racks

Each rack interstacks with other racks and fits through any commercial dishwasher.

## choose the correct rack

### Glass Racks

Available in 2 compartment sizes and 3 different heights. To find the right size:

1. Measure the maximum diameter of the glass (stemware or tumbler) to determine the number of compartments.
2. Measure the maximum height of the glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.

### Cup Racks

Cup racks are available in 2 different heights. To find the right size

1. Measure the maximum diameter of the mug or cup, including the handle, to determine the number of compartments.
2. Measure the maximum height of the mug or cup to the top edge of the rim to determine the compartment height.

## chafing fuels

REORDER NO.	DESCRIPTION	BURN TIME	MFG. NO.	CASE PACK
<b>S</b> 173600	GFS Extreme Heat Ethanol Gel Chafer Fuel	2 hr.		72 ct.
173610	GFS Methanol Gel Chafer Fuel	2 hr.		72 ct.
	Traditional gel fuels are powered by either ethanol or methanol, both offering strong heating performance for rapid boiling of water in chafing dishes. When output is important, the GFS Extreme Heat Ethanol Gel produces a higher level of heat over GFS Methanol Gel. Traditional food-warming fuel, ethanol gel fuel comes in damage-resistant steel cans. And unlike other fuels, ethanol is not made from petroleum, making it a much cleaner fuel to burn. Burns up to two hours per can.			
173630	GFS Wick Chafer Fuel	4 hr.		24 ct.
173620	GFS Wick Chafer Fuel	6 hr.		24 ct.
	Wick fuels incorporate a wick to deliver an optimum flame height that remains steady and strong throughout the burn cycle. Our Power Wick fuels are powered by a clean-burning liquid fuel for efficiency and safety.			
174710	Sterno Candlelamp Ethanol Gel Chafer Fuel	45 min.	20106	144 ct.
	Even-burning formulation maintains an ideal 185°F food pan temperature. Clean burning, odorless, and non-toxic. Ideal for shorter functions such as business luncheons, cocktail service, and late-night meetings. Features premium ethanol formula (pink).			
178040	Sterno Candlelamp Safe Heat Power Pad Wick Chafer Fuel	2 hr.	10112	72 ct.
174880	Sterno Candlelamp Safe Heat Power Pad Wick Chafer Fuel	4 hr.	10114	24 ct.
219890	Sterno Candlelamp Safe-Heat Power Pad Wick Chafer Fuel	6 hr.	10116	24 ct.
	Advanced Heat-It and all Safe Heat products feature an exclusive Power Pad, which combines the safety and efficiency of wick fuel with the high heating power of gel. Wide-pad technology produces a broader, hotter flame, while the liquid fuel is sealed inside a steel canister with a spill-safe top.			
776182	Sterno Candlelamp Ethanol Gel Green Heat Chafer Fuel	2 hr.	20112	72 ct.
	Green heat is a corn-based, environmentally friendly ethanol gel chafing fuel that is easy to light and burns clean. The concentrated formulation produces the same burn time and heat output of traditional ethanol gel, but offers a smaller footprint and less waste.			
582441	Sterno Candlelamp Handy Wick Chafer Fuel	4 hr.	10106	24 ct.
	These chafing fuels feature a four hour wick to ensure steady heating performance with a consistent flame height. Each container features a convenient twist cap for easy storage and reuse.			
473061	Eco-Burner Fuel Refill Canister	5 - 7 ½ hr.	9003	6 ct.
	Fuel is a blend of butane and propane. Fuel is a compressed gas that leaves the can completely empty when emptied by Chafu unit. Can is recyclable.			
<b>N</b> 709272	Sterno Candlelamp Chafing Fuel Snoppener		70164	12 ct.
	A new and highly useful tool that you can use to open and snuff your GFS and Sterno Candlelamp chafing fuels. Lightweight, durable, and lanyard ready.

# high-heat food pans by cambro

Simplify your operations with one pan that does it all. H-Pans can go from prep to cooler to oven to steam table, handling extreme temperatures ranging from -40°F to 375°F. Made of FDA-approved materials. H-Pans have both standard and metric graduation markings to promote easy inventory management. Non-stick surfaces promote easy food release for improved yields and easier cleaning.

## proserve racks and carts by rubbermaid

This innovative system is especially designed to work with full-size food pans, food boxes, and sheet pans. The components are made of impact-resistant structural web plastic. Racks and carts are designed with soft, rounded corners that are easy on walls, doors, and other equipment. Heat-resistant plastic construction allows hot baking pans (350°F/176°C max) to be pulled directly from the oven and placed on the rack. Quiet handling and upscale design allows workers to move food directly from the kitchen to the dining room for fast restocking without repeated trips. USDA Meat and Poultry Group compliant. All certified NSF Std. #2. All casters 5", non-marking swivel plate design – two locking and two non-locking.

	REORDER NO.	DESCRIPTION	MFG. NO.	CASE PACK

## ice sculptures by carlisle

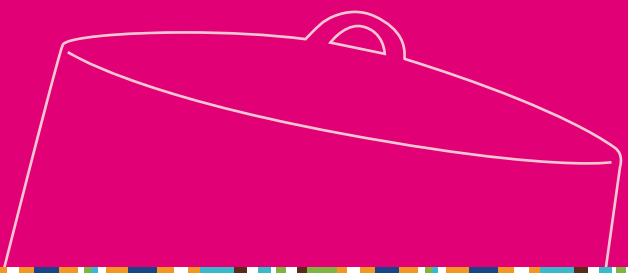

Ice sculptures are an eye-catching addition to any event. Sculptures can also be utilized to hold food or contribute to food chilling. Add 1-2 teaspoons blue food coloring for added aesthetic appeal. These disposable ice molds help you look like an expert ice carver in a fraction of the time. Simply fill with water and put in freezer for 24-36 hours. Use a razor blade to split mold at the seam and peel it away from the ice sculpture.

REORDER NO.	DESCRIPTION	DIMENSIONS	MFG. NO.	CASE PACK

# what does nsf-certified mean?

Cutlery, utensils, and cookware are evaluated by NSF International in order to ensure that they are acceptable for commercial use. This includes meeting all of NSF/ANSI Standard 2: Food Equipment Requirements, which ensure that the product is designed and constructed in a way that makes it easy to clean and sanitize, resist corrosion, abrasion, impact, and heat, as well as prevent food adulteration.

GFS cutting boards

These durable co-polymer cutting boards provide heat, chemical, and warp resistance, and also feature a patented food-safety hook. Each board resists unsanitary cut-grooving and will not dull knives. The unique hook design promotes sanitary transport and allows for simple drying and storing of these cutting boards. The tough surface prevents dulling of knives and unsafe cut-grooving, and the boards are imprinted with metric and U.S. standard rulers for easy food preparation. Withstands continual high-temperature commercial washing without warping.

serving spoons with plastic handle by vollrath

Jacob’s Pride serving spoons feature a durable and efficient spoon design. Each is designed with a heavy-gauge stainless steel shaft and bowl, which is resistant to corrosion. The high-temperature patented nylon handle is heat resistant to 450°F (232°C), and is ergonomically designed for comfort and reducing hand fatigue. The built-in stopper notch prevents spoons from sliding into food, and the textured surface on the plastic handle prevents slippage while in use. One-piece construction is extremely durable and has no crevices to collect water or bacteria, and the unique bowl shape with contoured ends fits the corners of pans - reducing food waste and maximizing serving efficiencies. 3-sided spoon has a straight-sided “cutting” edge to aid in serving solid, sticky, or cheesy food products.

## micro hot pans by cambro

Simplify your operations with one pan that does it all. H-Pans can go from prep to cooler to oven to steam table, handling extreme temperatures ranging from -40°F to 350°F. Made of FDA-approved materials. H-Pans have both standard and metric graduation markings to promote easy management. Non-stick surfaces promotes easy food release for improved yields and easier cleaning. Covers are ordered separately.

FULL-SIZE PANS					
REORDER NO.	DESCRIPTION	CAPACITY	DIMENSIONS	MFG. NO.	CASE PACK

## insert pans by cambro

Three-in-one service: storage, transportation, and serving displays. Clear pans allow easy identification while black pans have a clean, contemporary look. Stackable with or without covers. Standard  $\frac{1}{2}$ " flange ensures proper fit on rails or drop-in units. Seal covers provide double seal to ensure freshness. GripLids reduce spills when transporting food. FlipLids provide easy access to contents. Food can be held without getting dried out to increase yield. Also reduces point of cross-contamination. Temperature range -40°F to 210°F.

### FULL-SIZE PANS

REORDER NO.	DESCRIPTION	CAPACITY	DIMENSIONS	MFG. NO.	CASE PACK

# heat 'n serve countertop soup merchandiser by vollrath

Unlike traditional warmers, Heat 'N Serve merchandisers can take prepared food from refrigerated to piping hot, and thermostatically hold the food at the proper serving temperature up to 212°F. Self-insulating thermoset wells will not crack, pit, or rust. These merchandisers feature true thermostats with overtemp protection for precise temperature control, and a bottom-mount power cord, recessed controls, and cool exterior for kitchen or public use. 120-volt, 800-watt, and 6.7-amp draw.

REORDER NO.	DESCRIPTION	CAPACITY	MFG. NO.	CASE PACK

## full-size food warmer by vollrath

Designed to hold your prepared soups, sauces, hors d'oeuvres, and entrées at serving temperature for hours. Stainless steel unit stays cool-to-the-touch while consuming up to 25% less energy. The self-insulating thermoset well is formed from heat-resistant polyester and glass fibers - it cannot rust, pit, or crack. The dome heating element is mounted inside the well where it is most efficient. Equipped with a true-temp thermostatic control for precise temperature control up to 212°F. 120-volt, 700-watt, and 6-amp draw.

## colonial kettle cooker by vollrath

This kettle cooker features charming early American styling. The low center-of-gravity, and four-leg design is more stable than other traditional kettles, and the low profile allows easy access, on both conventional-height counters and under sneezeguards. It also features black epoxy-coated, cast-aluminum bodies, recessed controls, and unbreakable legs. 11 1/4" high at inset rim. Includes 7-qt. vegetable inset with hinged cover, adapter ring, soup cards, and soup'r clip. Can be permanently mounted to counter. 120AC voltage, 1200 watts, 10 amps.

## proserve racks and carts by rubbermaid

This innovative system is especially designed to work with full-size food pans, food boxes, and sheet pans. The components are made of impact-resistant structural web plastic. Racks and carts are designed with soft, rounded corners that are easy on walls, doors, and other equipment. Heat-resistant plastic construction allows hot baking pans (350°F/176°C max) to be pulled directly from the oven and placed on the rack. Quiet handling and upscale design allows workers to move food directly from the kitchen to the dining room for fast restocking without repeated trips. USDA Meat and Poultry Group compliant. All certified NSF Std. #2. All casters 5", non-marking swivel plate design – two locking and two non-locking.
