KENWOOD

Portable Emergency Kit

Kenwood introduces a new concept in disaster communications, the Portable Emergency Kit. Designed for instant set up and use in even the most extreme field conditions, it includes tough Kenwood portable radios and a base station radio with every essential communications accessory. The kit is protected in a rugged weather-resistant case for easy handling and shipment to disaster sites. Indispensable for any public service agency, this kit is always ready when you need it. Each kit includes the following Kenwood products:

■ **Waterproof, ruggedized case with unique sealing mechanism protects the radios and accessories from severe weather conditions.**

■ **Six heavy-duty field programmable Kenwood Dual-band portables mean that your entire team can be immediately outfitted with radios.**

■ **Field Command Station is a Dual-band 144/440 MHz Mobile unit coupled with a lightweight switching power supply.**

■ **Each kit includes the Kenwood VC-H1 for instant transmission of color images by radio from one site to another.**

■ **Quick instant communications with FreeTalk™ portable radios, capable of 38 hours talk time on 3 AA batteries.**

■ **Each Kit is provided with six heavy-duty waist bags equipped with extra batteries, lapel speaker microphones, 12V DC adapters, with room to spare.**

Kit Contents
